

Mina do Barroso Lithium Project Community Newsletter April 2019 Edition

Savannah Resources PLC (“Savannah”) is a mineral exploration company listed on the London AIM stock exchange (AIM: SAV) and is developing a lithium project in Barroso region.

The purpose of Savannah’s newsletter is to provide the communities surrounding the project with information about the work completed and planned by the company. You can find the previous editions on the Savannah’s website section dedicated to community (<http://www.savannahresources.com/community/portugal/>).

This newsletter is designed to help promote two-way communication between the company and the community. Therefore, if there are any specific questions which you would like to have answered please contact us at community@savannahresources.com and we will endeavour to answer the question in a future edition of the newsletter or, if more urgent, directly with you.

Information Centre

In the past six months Savannah have been preparing an information centre to provide details on the proposed development plans of the Mina do Barroso lithium project.

The information centre is now open for anyone to find further details on all aspects of the project. The centre will be open 2 days each week, with someone available to discuss and answer questions on exploration, licensing and environmental monitoring, construction, mining, processing and re-habilitation. The centre is intended to provide dynamic information which will be updated over the development cycle of the project, with new displays being added as details of the project become defined.

Savannah look forward to welcoming and sharing the project with the local communities of the region. There is a mail post box outside the centre where any question/comment/suggestion are welcome and Savannah will be happy to contact individuals personally to discuss their concerns.
