

Savannah Resources PLC (“Savannah”) is a mineral exploration company listed on the London AIM stock exchange (AIM: SAV) and is developing a lithium project in Barroso region, on which issue we make these newsletters. Savannah’s main goal is to provide the communities surrounding the project with information about the work completed and planned, so that the community is involved in this project so important for everyone.

July at Mina do Barroso Project

We are continuing work on the treatment of the laboratory's results analysis, as well as the ongoing economic feasibility study of the project.

The Environmental Impact Study remains a priority for Savannah, so this month field work was carried out by independent biologists to gather more information on terrestrial and aquatic fauna, which will give us more insight into this site.

Additionally, we have been monitoring all mining work in the Barroso Mine and the resulting environmental changes, which allows us to better understand the impact caused by the activity of the mine. In this way, we also ensure that we are able to comply with the Environmental Impact Statement.

Reposição de Muros

Dispositivo para Medição das Vibrações

Given the importance of the platforms requalification and according to what was agreed with the owners, we made the replacement of the walls in the land.

We will soon perform a public session for all residents of Covas do Barroso, welcome all interested in this subject, where we will present the state of play of the project of Mina do Barroso, we will clarify questions and we will answer to your questions.

The date will be announced soon in the usual locations when the time and place are set.

We count on your presence to make this session enlightening and enriching!

We remind you that our **information center in Covas do Barroso** is waiting for you every Tuesday from 10am to 12.30pm and Wednesdays from 14pm to 17.30pm. Come and visit us!

In August there will be no newsletter, as there will be no progress on the work done at the mine.

Savannah Team

Savannah has a new team member, meet her ...

My name is Joana Prazeres, I'm married, and I have two children. My area of training is Marketing, a discipline in which I graduated 16 years ago. Since then, I have been able to enrich my knowledge with a master's degree in Service Marketing in 2009 and more recently in 2018 with a master's degree in Digital Management and Innovation. My professional career was built in the commercial area and mainly in Marketing and Communication, where I developed and executed strategic and communication plans in several companies, mainly multinational companies and in several sectors, such as distribution and retail, consumer goods or chemical industry, which produces various materials used in mining activity. I am very excited about this new

professional challenge at Savannah Resources and are pleased to have the opportunity to get to know the company's activity in depth.

For more information...

Savannah provides a dedicated community section on the website: www.savannahresources.com.

If you would like to visit the site where we are developing our work to see any of the operations or if you have any other questions, our team will be more than happy to meet you and answer your questions.

Savannah has a dedicated community relations officer collaborator, Marta Fernandes. Marta can be reached at 917599130.

For any additional questions, please send an email to community@savannahresources.com. We will respond as soon as possible.
