

## Additions to the Team

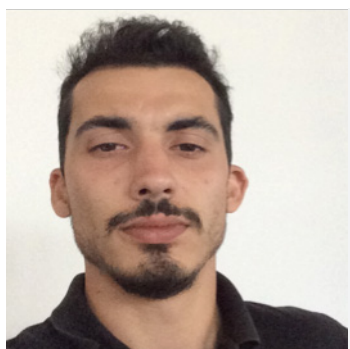

---

With the increase in site activities we welcome two geologists and a field assistant to the team.

### **Antonio 3DLD, Geologist**

Antonio who is from Vila Verde da Raia has joined the geology team to supervise the ongoing drilling and field work. In addition to being passionate about the geology of the region, Antonio likes to spend time camping in remote places, climbing, mountaineering and just being outdoors while enjoying the local food and wine.

### **Pedro Homem, Geologist**

Hi, my name is Pedro Homem, i'm 26 years old and i'm from V.N. Famalicão, Braga. At this moment, i'm finishing my master degree in Geology in Faculdade de Ciências da Universidade do Porto and have just started working as a junior exploration geologist in the team that is developing the project of Barroso.

As a person, i am adventurous, i love to travel (my last trip was to know the geology of Iceland, i like new challenges, and I am a hardworking guy. Being this my first job in geology, i am very excited and I feel prepared for the new challenges that i will encounter.

### **Telmo 0DULR, Field Assistant**

Hello! I'm Telmo, I'm 27 years old and I'm from Boticas. I'm the newest fieldy.

In my free time I practice martial arts (Sandá and Kung do Té). I have participated in several championships and won many titles, such as national champion in 2015 and 2018, I was 3rd in the 2017 World championship, 2nd place in the international tournament and I'm the national vice champion of Kung do Té.

When I'm not working or training, I like fishing and going to the movies.

## What has Savannah got planned for HSWHPEHU 2018?

---

During the month of 6SWPEU Savannah will be continuing to conduct RC drilling and diamond at the Grandão, Reservatorio and NOA prospects.

Work will also commence on the collection on baseline environmental information across the project as part of the on-going environmental impact assessment. This will include water investigations and make assessments of back ground noise and dust levels with a dust monitoring device being installed at various locations in the project area during September.

## Where to find more information

---

There is further information on the Savannah website in the dedicated community section, the website can be found at [www.savannahresources.com](http://www.savannahresources.com). If you have a specific question or query please send an email to [community@savannahresources.com](mailto:community@savannahresources.com) a we will endeavour to answer your question as soon as we are able.

Savannah has a dedicated community relations office Marta Fernandes who is available to discuss the project with the community. Marta can be contacted on **917599130**.
