

30 August 2024

### **Upcoming conference participation and latest edition of the Barroso Lithium Community Newspaper**

Savannah Resources Plc, the developer of the Barroso Lithium Project (the 'Project') in Portugal, Europe's largest spodumene lithium deposit, is pleased to announce its conference attendance during September to November and the publication of the third edition of its community newspaper.

#### **Conference attendance**

Savannah will be attending and presenting at the following European industry conferences:

- [Fastmarkets European Battery Raw Materials Conference 2024, September 16-18, Amsterdam, Netherlands](#). One of the leading annual gatherings for all those operating in the European battery and battery raw materials sectors.
- [Li-ion Battery Europe 2024, 8-10 October, Brussels, Belgium](#). This leading industrial event connects European and global battery chain players to extend the discussion on the future of the battery and automotive industries.
- [6<sup>th</sup> Mining 4.0 Roadmap For The Future, 6-7 November, Barcelona, Spain](#). The exclusive event will focus on how digitalisation, automation, and technology are revolutionising exploration, extraction, and processing operations across Europe and the rest of the world.

#### **Community Newspaper**

Savannah has recently published the third edition of its Barroso Lithium Community Newspaper. The latest edition provides an update on Savannah's recent work on the Project including details about the ongoing acquisition of land, with a focus on our commitment to a transparent and fair process; the recent partnership agreement between Savannah and AMG Critical Materials N.V.; the growth of our team and the job creation opportunities for the local talent.

The physical newspaper has been distributed in the municipality of Boticas, and can also be found at our local Information Centres as well as on our website (in Portuguese and English) at: <https://www.savannahresources.com/esg-community/our-community/>.

Savannah plans to publish the next edition of the newspaper in the Autumn.

Savannah - **Enabling Europe's energy transition.**

**About Savannah**

Savannah Resources is a mineral resource development company and the sole owner of the Barroso Lithium Project (the 'Project') in northern Portugal, the largest battery grade spodumene lithium resource outlined to date in Europe.

Through the Project, Savannah will help Portugal to play an important role in providing a long-term, locally sourced, lithium raw material supply for Europe's lithium battery value chain. Once in operation the Project will produce enough lithium (contained in c.190,000tpa of spodumene concentrate) for approximately half a million vehicle battery packs per year, and hence make a significant contribution towards the European Commission's Critical Raw Material Act goal of a minimum 10% of European endogenous lithium production from 2030. Savannah is being supported in its development goals by its strategic partner and largest shareholder AMG Critical Materials N.V., the global critical materials business.

Savannah is focused on the responsible development and operation of the Barroso Lithium Project so that its impact on the environment is minimised and the socio-economic benefits that it can bring to all its stakeholders are maximised.

The Company is listed and regulated on the London Stock Exchange's Alternative Investment Market (AIM) and the Company's ordinary shares are also available on the Quotation Board of the Frankfurt Stock Exchange (FWB) under the symbol FWB: SAV, and the Börse Stuttgart (SWB) under the ticker "SAV".
